Easy on / Easy off, adjustable.

Universally sized to fit all makes of bars.

Extremely tight gripping, will not loosen, slide or release unless you want them to.

The tighter you pull, the tighter the collar grips.

One hand adjustable tension to accommodate any level of strength.

VIRTUALLY INDESTRUCTIBLE!

Some ball bearing collars may jam and damage your bar, other screw tightened collars may be over tightened and do not release easily. Some spring collars lose their tension strength over time.
